Visit of 'Biopousses' an organic agricultural test area in Courcy (50)

Finalisation of the Green Future project

ON THE 18TH OF JUNE 2024, GREEN FUTURE CONSORTIUM MET IN COUTANCES FOR THE LAST PARTNERS MEETING HOSTED BY LES 7 VENTS

On the occasion of the European partners' visit to Coutances, Les 7 Vents held a meeting day with local structures linked to business creation and integration. This event provided an opportunity to present the various projects underway in La Manche and other European regions, to present the work carried out by European partners and to share best practice. A visit of the farm and a detailed presentation of the 'Biopousses, an Agricultural test area' scheme and the support for entrepreneurs by the Rhizome cooperative took place.

FINALISATION OF THE GREEN FUTURE PROJECT

The Green Future project was launched in February 2022 for 2,5 years, supported by the European Union under the Erasmus+ Programme. 6 European partners contributed to the implementation and success to this project: Asociacion Con Valores, Meath Partnership, Consorzio Social Lab, Arid, Hearthands Solutions and SCIC Les 7 Vents.

During these 2,5 years, 4-main project results have been developed:

- The rural ecosystem mapping: reports on territorial and sectorial analysis to foster business incubation for persons at risk of exclusions,
- An online bank of ideas,
- A digital platform for financial and legal assessment and,
- An online platform to implement incubation programmes for persons at risk of exclusion.
